

Union Special Medway

TELESCOPIC CONVEYORS

- Telescopic conveyer suitable for bulk Bags loading and unloading from the trucks
- This conveyer can be operated manually via control panel or can be operated by a remote (optional)
- Belt width 400, 600, 800, 1000 models available.

Designed and manufactured to achieve high handling rates, these machines are suitable for loading and unloading trucks, trailers, containers and vans, utilizing a telescopic boom that can extend up to 25 meters at the touch of a button.

These Conveyors can be installed either on a loading dock or on ground level where a high-level chassis and inclined tail conveyor are included.
